Innovation & Technology

INNOVATION & TECHNOLOGY

Innovation and technology policies are of utmost importance for the future of Bavarian companies and Bavaria as a business location. Innovation is what drives growth, employment and prosperity. This is where risks and challenges lie, and also where new chances and opportunities present themselves. Consequently, the Bavarian Government supports companies in heading into the future innovatively.

TECHNOLOGY POLICY

Find out more about the objectives of Bavarian technology policy and the Bavarian Government's Strategy for Research, Technology and Innovation.

FOCAL POINTS

Bavaria's successes in research and technology are based on broadly promoting key technologies and the underlying fields of science.

CLUSTER INITIATIVE BAVARIA

The "Bavarian Cluster Initiative" is a feature of the modernization strategy designed to enhance Bavaria's role as a

top location for business and research.
